ABOUT ECHA

## List of pre-registered substances

### What is this list?

This list was produced on the basis of the information contained in the pre-registrations submitted by companies. It is an updated version of the preliminary list of substances submitted by companies before 1 December 2008. It simply shows the entire list of the substances, around 143 000 of them, pre-registered by some 65 000 companies. It does not guarantee the validity of the information submitted.

[More...](#)

### How can I use it?

You can search it to find a substance with a view to eventually joining a Substance Information Exchange Forum (SIEF) with pre-registrants of the same substance's name (or part of it), or a synonym. If you can't find your substance after searching, all is not lost. You can try to identify the most appropriate SIEF. Alternatively, if you are a downstream user of a substance which doesn't appear on the list, you may notify ECHA of your interest and we will invite potential SIEF members.

### Search the list

## ČÁST 2

# DATABÁZE ECB: ESIS GHS/CLP

The screenshot shows a web browser window with multiple tabs. The active tab is the ESIS website. The header features the European Commission logo and the text "European Commission Joint Research Centre Institute for Health and Consumer Protection". Below the header is a navigation menu with buttons for "ESIS", "EINECS", "ELINCS", "NLP", "BPD", "PBT", "CLP/GHS", "HPV-LPV", "IUCLID DS", and "ORATS". A search bar is present with a dropdown menu set to "- EC# (EINECS# / ELINCS# / NLP#)" and a "SEARCH" button. The main content area has a blue background and contains the following text:

**ESIS : European chemical Substances Information System**

ESIS is a complex, heterogeneous information system which provides information on chemicals. It includes the elements listed below. Please note that since 2008, the databases marked with two asterisks \*\* have been taken over by the [European Chemicals Agency \(ECHA\)](#), which will also ensure further updates.

- EINECS (European Inventory of Existing Commercial chemical Substances) O.J. C 146A. 15.6.199.
- \*\*ELINCS (European List of Notified Chemical Substances) in support of Directive 92/32/EEC, the 7th amendment to Directive 67/548/EEC.
- NLP (No-Longer Polymers).
- BPD (Biocidal Products Directive) active substances listed in Annex I or IA of Directive 98/8/EC or listed in the so-called list of non-inclusions.
- \*\*PBT (Persistent, Bioaccumulative, and Toxic) or vPvB (very Persistent and very Bioaccumulative).
- \*\*CLP/GHS (Classification, Labelling and Packaging of substances and mixtures); CLP implements the Globally harmonised System (GHS), Regulation (EC) No 1272/2008.
- Export and Import of Dangerous Chemicals listed in Annex I of Regulation (EC) No 689/2008.
- \*\*HPVCs (High Production Volume Chemicals) and LPVCs (Low Production Volume Chemicals), including EU Producers/Importers lists.
- \*\*IUCLID Chemical Data Sheets, OECD-IUCLID Export Files, EUSES Export Files.
- \*\*Priority Lists, Risk Assessment process and tracking system in relation to Council Regulation (EEC) No 793/93 also known as Existing Substances Regulation (ESR).

### Substance Search

#### Number:

CAS, EC, IUBMB, MITI, UN or NA Number.  
Example: 108-88-3 for a CAS Number.  
Make sure you include the number separators. Do not search on partial Numbers.

#### Chemical name or synonym:

Example: Use *gluta\** to find Glutamic acid, use *\*chloro\** to find dichlorobenzene.  
To search for *\** as character (non wildcard use) use *\*\** instead.
